## So what is HealthShare?

HealthShare or Medical Cost Sharing is a 501c3 not-for-profit program designed to provide it's members an organized structure to contribute toward each other's medical costs. This system has been proven an effective alternative to high cost health insurance.

**Below are the top 5 benefits your HealthShare should provide!**

### Confidence

A great HealthShare will have your back. They exist because of you and to help you. They should be quick to respond, easy to understand and transparent, meaning no "fine print". You can trust they have you and the community's best interests in mind. That brings confidence when you need it.

### Negotiation Skills

A great HealthShare will have a dedicated member care team. Are they responsive? Yes! Are they trained to negotiate? Yes! Do they understand the costs associated with medical needs? Yes! Then that's the team for you! Look for a HealthShare that will negotiate and pay in advance for medical procedures.

### Pay Direct

A great HealthShare will pay direct to medical providers after they have negotiated the overall medical costs for you. You'll still need to pay your portion, cause you're a caring member of the community. Paying direct keeps your money in your pocket and paying in advance prevents medical providers from slipping in something extra.

### Pay Promptly

For those instances where emergency medical issues arise and you receive a bill, which does happen, you'll want a HealthShare that will quickly reimburse you and or pay that medical bill within 5-8 business days of submission.

### Helping Those In Need

A great HealthShare is a benevolence organization. That means they have solutions and funds to offer members who might be going through hardships or extreme financial burdens. They create an opportunity for you to donate and help others above and beyond the standard monthly contribution. Though not necessary to give back, this is a great way to gain an extra tax write off.
